Gambling Research Exchange Ontario

The “Building knowledge and awareness of problem gambling within the Filipino community in Toronto” project instigated a culturally-sensitive needs assessment and the development of two knowledge translation (KT) products focused on problem gambling in the Filipino Canadian community in the Greater Toronto area. Our goal was to improve awareness and reduce the knowledge/information gaps in the community regarding problem gambling. We focused on building a community network to identify information needs and spaces for potential intervention/support.

Led by Kababayan Multicultural Centre (KMC), this project established an advisory committee with members embedded in the Filipino community to guide the overall project. Members were leaders affiliated with ethnic marketing; Filipino-specific support groups for seniors, youth (including LGBTQ youth), and caregivers; newcomer settlement, immigrant integration, and mental health; and church-based support groups.

We conducted a needs assessment, using one-on-one interviews and focus groups with a total of 50 Filipino community members, including newcomer youth, caregivers, seniors, frontline workers, former/current gamblers, and family members of problem gamblers. The needs assessment confirmed that the Filipino community asserts there are gambling issues in the community, but community members lack information about available resources for problem gambling. Further, existing resources are very limited. At the same time, gambling is perceived as “normalized” in the culture, and problematic gambling behavior is not discussed openly amongst family, friends, and the general community.

Upon reviewing the needs assessment data with the project team and advisory committee, we have completed the initial development of two products: a Tagalog (with English subtitles) video about problem gambling in the Filipino community and a PowerPoint presentation to be used by and with frontline / community workers.

Clients Appreciation

I would like to thank Kababayan Multicultural Centre and its staff, most sincerely, for all the help you've given me since the time I had my work permit until now that I am already a permanent resident together with my family. Settling in Canada is both an exciting and a nerve-racking process, but from the very beginning you have made me feel welcome like I found a home away from home. The assistance and counseling provided by the staff have showed me the knowledge, the process and the tools I needed to integrate in Canadian community and enable me to overcome the difficulties I encountered in my everyday life.

KMC other programs and services such as Computer training, English conversation, group sessions and other training have helped me in different areas of my life. I will continue to be with Kababayan and I'm inspired to work as volunteer in my spare time.

I have recommended KMC to my family and to other newcomers and immigrants so they can also avail the assistance, the programs and services which are beneficial not only in adapting to life in Canada but as well in our everyday challenges.

Thank you for all the services and support of the amazing staff. God Bless and More Power!

Marilyn Montenegro

It is my honour to enumerate all the help I received from this Organization.

First, I was looking for someone who can help my friend to extend her tourist visa for a year. And with the help of the Director of Kababayan Multicultural Center, I was pleased and amazed because my friend's request was approved.

Secondly, since I am released from work, I came to another staff a Settlement Worker of this organization. Thru her she updated my application of my claim regarding Old Age Benefit, CPP and my Guaranteed Income Supplement. Through her help I was clarified and my questions was being answered correctly

Kababayan Multicultural Organization catered so many programs, likewise, helping Senior's Citizen in organizing so many activities to make them keep going. Like me, 72 years old and retired, I needed support being alone and no family but friends only. And these friends of mine became like my own family already through Kababayan, as they organize trips, like going to the farm, picking apples and more. Attending mass outside Toronto and visiting different places of Ontario, as well. And that we seniors are motivated. And yes, we are always looking forward to be with friends. And I would say. being a member of this organization is fun and at the same time educational.

At our age, seniors belong to an old era, and we should be introduced to a new system and not be left behind. Yet, Kababayan and staff are enhanced and compromised to do their best abilities to make us Senior's up to date and happy in all aspects being a Senior Citizen of Toronto, Canada.

Good job Kababayan Multicultural Organization. MABUHAY...Long live SENIOR'S of Canada.

HERMOSISIMA CASPE

I came to Canada with my father through my mother who applied for permanent residence in Canada. My mother introduced me to Kababayan Multicultural Centre to join some of the programs which are very helpful for newcomer immigrant like me. The staff are really nice and I feel welcome every time I go to the Centre.

After couple of years, it's now my turn to get my wife and two children to come and join me here. Again, I went to Kababayan and asked for assistance in my sponsorship application. My great appreciation to the counselor who guided me in getting and completing all the forms and documents required for sponsorship application. It is my sincere hope that my application will be approved soon and I will be very happy to have a life here in Canada together with my whole family.

Thank you Kababayan for your services in helping us and other immigrants to be reunified with our families.

Clients Appreciation

I came in this country as a stateless Tibetan person and filed my claim. I did not have formal education and did not know English; I knew Tibetan and Nepali. At the time, everything was new and confusing to me and I was looking for a place/program where I can ask my all questions and get help to settle in Canada. One of my friends told me about LSP Program at Parkdale Library and I went there to meet LSP worker. Then, most of my stresses are gone because I got the services in an accessible language and found the program to be very helpful for people like me. Now, I am already permanent resident and will apply for Citizenship soon. Still, I will look for help from the LSP worker at Parkdale Library. I really thank LSP Program.

Phurbu Dolker

Family Reunification Workshop

I came to Kababayan during the early months of 2017 because I was looking to get assistance on applying for open work permit and application for permanent resident. It may sound simple but for me, it was a very complicated situation because I had a first family with two children in that marriage who were not cooperating with the required documentations for me to submit the application. I wanted to include the two daughters in my application but my first wife was making it difficult. She would change decisions every now and then contributing to the delay of my applications.

Because of these situations, I requested assistance to write a letter to IRCC for an extension of the submission. I would sit together with the settlement worker and discuss how to convince my wife to allow our daughters to join me or to just comply with the required documentations. Getting desperate already, I decided to go home to the Philippines to talk to my first family to personally inform them of my desire to bring my daughters over to Canada together with my second family. The settlement counselor discussed with me positive alternatives that could convince them to listen.

Several confrontations took place in the presence of both parties and even with barangay officials in our town in the north, but all my efforts were all in vain.

I came back to the counsellor with all the frustrations and told her that I will just go ahead with the submission without the documentations from the first family and that I was ready as to whatever decisions that IRCC might give me. The counsellor told me the possible scenarios that could happen and walked me to the process. Even consulted a lawyer to confirm my information.

Finally, the settlement counselor prepared a letter for me explaining how hard I had tried to be with both my families. Enumerated all the efforts starting from here to the Philippines but no amount of begging and explaining did favor on my side. Along with this letter which was done in early February of this year was the submission of my application; not quite sure what the results will be. I was ready and prepared of any decision that will be given by IRCC.

Last April 2019, I called KMC counsellor advising her that I got a decision letter from IRCC about the application that we did and I almost cried when I learned that my application for permanent resident was approved despite the missing documents from my first family. I am so thankful about the support that the Centre have provided to me through my difficult times.
